

WINTER CLUB EARLY CHILDHOOD PROGRAMS 2023-2024

The Winter Club Early Childhood Programs 2023-2024

We are pleased to announce the opening of registration for the Winter Club Early Childhood Programs. The Preschool has been a very important part of the Winter Club tradition for over fifty years. All of our classes offer children an environment in which they can grow and thrive. Our philosophy embraces the idea that children learn by doing. We present opportunities and materials that are fun and interesting for our youngest students, yet challenging and stimulating for our older students. Our goals support this philosophy:

1. To provide a safe, warm, positive environment in which a child can develop a strong and healthy self-concept.
2. To provide a social environment in which a child can learn to interact with other children in a positive, caring way.
3. To develop the ability to observe, explore and problem solve.
4. To provide a learning environment in which a child can learn basic readiness skills and concepts.
5. To build on a child's natural curiosity of the living world around them.
6. To ensure that a child is ready intellectually, socially and emotionally to begin a kindergarten program.

Jillian Floriani and Cindy Niesman have been with The Winter Club for over twenty years. They both have a Master's Degree in Early Childhood Education from National-Louis University. If you are interested in learning more about the Early Childhood Programs, please send an email to jfloriani@thewinterclub.com.
